

Reference Job in Portal: PROD_Test_03MAR14.

Displayed below are each of the Tabs (currently available in the Worldview Portal).

Contact Tab (Also Called “Identity” in some places)

The screenshot shows a web browser window with the URL `worldview.globaldataconsortium.com/worldview/en/cases`. The page displays the 'Identity/Contact' tab, which contains several sections for data entry:

- General:** Fields for Key (1003), Nationality, Date of birth/foundation, National ID, Contact type (Person), Organization name, Gender (Male), and Chamber of commerce no.
- Name:** Fields for Surname first (David), Surname second, Given names (Bower), Given names full (Bower), Complete name (Bower David), Surname prefix first, Surname prefix second, Given names initial, and Indicator.
- Name qualifiers:** Fields for Form of address, Qualification preceding, Qualification intermediate first, Qualification intermediate second, Qualification succeeding, Name qualifier, Compound surname (David), and Function.
- Creation and mutation date and time:** Fields for Creation date and Date of last modification.

On the right side of the form, there is a 'Status messages' section with the text 'No messages'. A large text box on the right side of the form contains the following text:

**Include fields for:
Options,
Adaptation
Code,
Reliability
Code,
Detail Code.**

Notice the following fields:
Options,
Adaptation Code,
Reliability Code,
Detail Code.

Will need these for Contact (Identity), Email and Phone - DQ & Verification.

Email Tab

The screenshot shows the 'Email Tab' in the Worldview application. The interface includes a navigation bar with 'Report', 'Reject Handling', and 'Suggestions' tabs. The 'Suggestions' tab is active, displaying a list of suggestions for email data. The 'Email data' section shows a form for 'Contact' with fields for 'Full email address', 'Address', 'Display name', 'Domain name', and 'Top level domain'. The 'Status messages' section on the right lists two codes: 'Code: 1' (Valid syntax of email) and 'Code: 2' (Valid domain). A text box on the right side of the screen contains the text: 'Include fields for: Options, Adaptation Code, Reliability Code, Detail Code.'

Include fields for:
Options,
Adaptation
Code,
Reliability
Code,
Detail Code.

Phone Tab

The screenshot shows the 'Phone Tab' in the Worldview application. The interface includes a navigation bar with 'Report', 'Reject Handling', and 'Suggestions' tabs. The 'Suggestions' tab is active, displaying a list of suggestions for phone data. The 'Phone data' section shows a form for 'Contact' with fields for 'Key', 'Contact type', 'Surname first', and 'Organization name'. The 'Phone' section shows fields for 'Phone number', 'International call prefix', 'Calling from country code', 'Country code', 'Trunk prefix', 'Formatted out of country calling', 'Area code', 'Line type', and 'Subscriber number'. The 'Status messages' section on the right lists two codes: 'Code: 100' (Phone Number is valid) and 'Code: 101' (Phone Number matches country code in input). A text box on the right side of the screen contains the text: 'Include fields for: Options, Adaptation Code, Reliability Code, Detail Code.'

Include fields for:
Options,
Adaptation
Code,
Reliability
Code,
Detail Code.
